

SHERWOOD LAKE ASSOCIATION COUNCIL

ABOVE GROUND POOL POLICY

The Sherwood Lake Association Council (**Council**) is granted the authority under **Section, 1.3, Powers** of the Restrictions and Protective Covenants of Lake Sherwood Acres (**R&C's**), to control exterior improvements and structures in Lake Sherwood Acres to ensure harmony in appearance and quality of materials utilized as set forth in the R&C's.

In consideration of the above, the Council finds that above ground swimming pools, with a water depth greater than eighteen (18) inches, are aesthetically undesirable and not in keeping with the harmony of the character of neighboring properties and are therefore prohibited in Lake Sherwood Acres.

Notwithstanding the foregoing, hot tubs are permitted if they meet the requirements of the R&C's and are fully enclosed by a fence meeting the requirements of the City-Parish for pools.
