6/15/2020	H	0620-507	111	12019 Lake Sherwood Aven	soffit, paint, fence, carport, garage enclosure, entry door						6/29 - council met with owner at property to review changes. All looked well except the addition of a carport which was planned to go directly against the rear property line. Discussed the need for it to be 7.5' back and that the council would need to see plans for the structure.

7/18/2020	C	0720-511	255	12224 Lake Sherwood Ave S	shed				X		7/18 - Don was notified by a neighbor that a shed had been built and they didn't like the placement. Don examined and found it to be directly on the rear property line. He informed the resident that a permit should have been filed and requested that any additional work stop until permit could be submitted and approved. 7/21 - Sam requested a meeting with homeowner and council. 7/24 - Meeting held in driveway of residence. Homeowner indicated they were not aware of need for permit but that they had seen several structures placed this close to property lines. Also discussed that the existing tree was also planted in the servitude. Council requested that homeowner first apply to the permit office for servitude encroachment and then we would review. 7/28 - Homeowner forwarded an email from Marta Marcuse with EBR Permit office stating that this accessory was exempt from review based on size. Sam left a voicemail for Marta and emailed requesting clarification that even though it didn't need full permit review, it did not need approval from servitude owners. 8/7 - Sam called Marta (no response received to email or previous voicemail). A lengthy conversation confirmed that the only time servitude encroachment is even reviewed is if it is an request denied - homeowner requested re examination of project as they had been previously told over the phone that it wouldn't be a problem to move the shed that they use as a study room. - Awaiting final agreement from council.

8/9/2020	C	0820-517		12335 Lake Ladare	new driveway	26-Aug				x	on 8/9/20 Sam emailed homeowner after seeing the driveway had been removed. The email requested that work cease until a permit was submitted and approved. The homeowner did not reply until 9/26 and questioned why she was being approached on this but not on previous improvements. She also indicated that additional work was being planned; new gate and roofing.
27-Aug	H	0820-518		12419 Lake Sherwood S	bulkhead improvement	29-Sep		x		x	After speaking with Mr. Huynh on the phone, we decided on an in person meeting. The council met 9/2 on site. After much discussion Sam requested, at a minimum, a sketch showing the spacing and depth of proposed pilings and tiebacks as well as location of new proposed patio. The bulkhead he is planning would bring in approximately an additional 2' of height at the water's edge and he does not plan to have the bulkhead design engineered.
