

**SHERWOOD LAKE ASSOCIATION  
LAKE MAINTENANCE REPORT  
MAY 2021**

The fountain in the center of the lake has been replaced with a new motor under warranty. All five of our fountains are working properly.

We encourage bulkhead replacement or repair if needed. A properly working structure not only adds value to your property, but it keeps your yard from eroding into the lake and makes it harder for the nutria to live there.

The estimates from Envirodredge, were reviewed and at close to a million dollars were found to be unaffordable. We are looking at different alternatives.

**Please inform your lawn crews that any trash blown into the storm drains goes directly into the lake with the first heavy rainfall!!**

**Be careful when applying lawn fertilizers, that they are not easily washed into the lake. City and University lakes are a prime example of algae bloom due to excessive fertilizer.**

*Please continue to clean up any trash that may be floating by your property. Thank You to our neighbors who lend a hand at keeping our lake looking beautiful!*

**GOALS FOR 2021**

1. Encourage Christmas decorations along the bulkheads and streets. Cazes
2. Reduce nuisance animal populations. (Ducks, beaver, and nutria). Hays & Cazes
3. Find a person to clean floating debris from the lake.
4. Continue efforts to encourage residents to repair and/or install bulkheads. Cazes, Edwards, Hayes
5. Continue contracting for lake cleaning. Cazes. On-going.
6. **Check into lake finger cleaning options.**
