

SHERWOOD LAKE ASSOCIATION LAKE MAINTENANCE REPORT

JANUARY 2023

Our lake is looking very healthy after the recent heavy rainfall. These rains also brought in some floating debris. A SPECIAL THANKS to property owners who remove this floating trash from near their property. Removing cups and bottles only take a few minutes and makes your property look much better. All five of our fountains are working properly.

We continue to encourage bulkhead replacement or repair if needed. A properly working structure not only adds value to your property, but it keeps your yard from eroding into the lake and makes it harder for the nutria to live there. **We now have an additional, more competitive contractor for bulkheads if you are thinking of replacing yours. Please contact me at 225-229-5971.**

Please inform your lawn crews that any trash blown into the storm drains goes directly into the lake with the first heavy rainfall!!

Please continue to clean up any trash that may be floating by your property. Thank You to our neighbors who lend a hand at keeping our lake looking beautiful!

GOALS FOR 2022

- 1. Find a person to clean floating debris from the lake.**
- 2. Continue efforts to encourage residents to repair and/or install bulkheads. Cazes, Hayes**

**Jim Cazes
Lake Chairman**
