

Progress Report 11/02/2015

Presented by Tommy Milazzo

- 1.) Potholes – As of 11/02/2015 the recent rains have caused the notice of some pothole forming but not to the point of repair. I will continue to keep an eye on them.
- 2.) Light pole outage / repair - I have notice lights out in Lake Sherwood Ave North and will contact Entergy again. If you know of a street light out near your home please let me know so I can report it. Let me know where it is located and I will mark it so Entergy can find it.

NEW IDEA'S: Mailbox campaign =

Time to talk a look at your mailbox. If it is time to repair or replace please contact Tommy Milazzo for more information on cost of a new replacement.

If you have tree limbs that are near the sidewalks, check and see if you can walk under them without getting hit. If so, please trim the back so we all can share a nice walk with ducking. Thanks!!! 😊

Respectfully,

Tommy Milazzo
